A Message from Superintendent Dickerson

I thank everyone who provided their thoughts on how we should return to school this fall.

I want to assure you that we are taking all viewpoints into consideration. I would ask in return that you understand we cannot meet everyone's wishes or address all concerns in one plan.

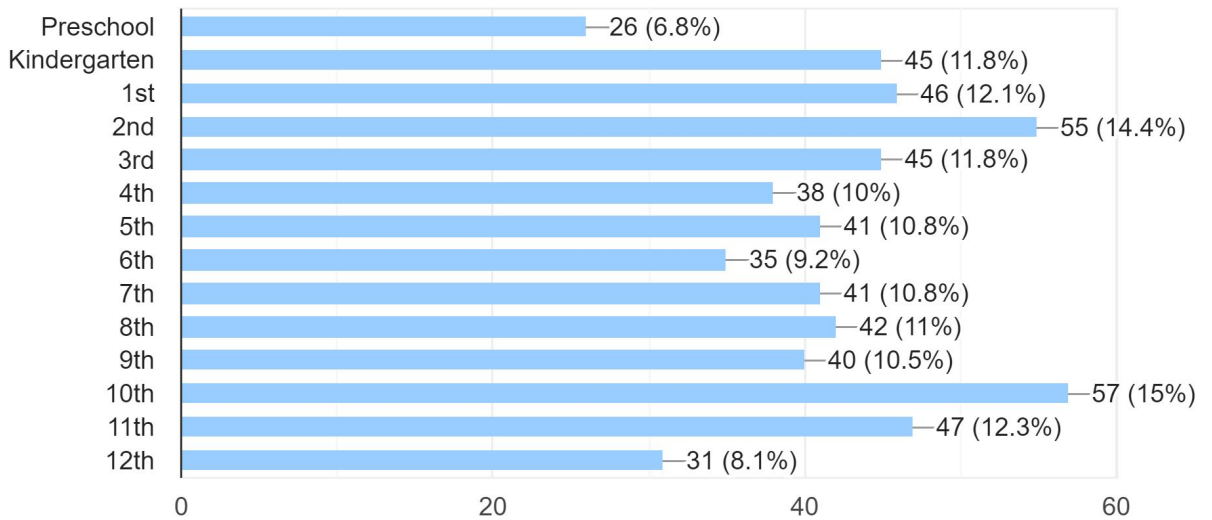

It is my wish that we can get back to some kind of normalcy. Our ultimate goal is to have all our students in our buildings every day. There are, however, many hurdles in making that happen.

Again, thank you for your input. Expressing your individual circumstances will be valuable in developing the district's plan.

Sincerely,
Steve Dickerson
Superintendent
Hillsdale Local Schools

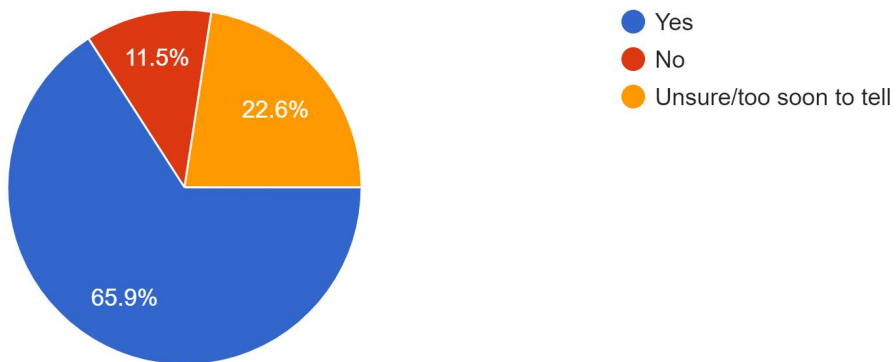

1. Please select the grade your student(s) will begin in the fall.

381 responses

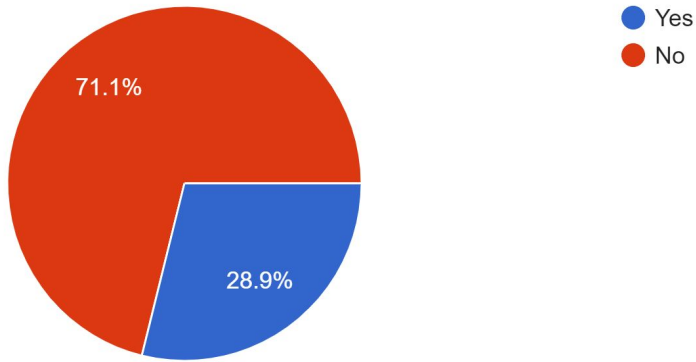

2. Assuming buildings reopen following local safety protocols (social distancing, wearing masks while not seated, temperature checks), will your student(s) attend school in the building?

381 responses

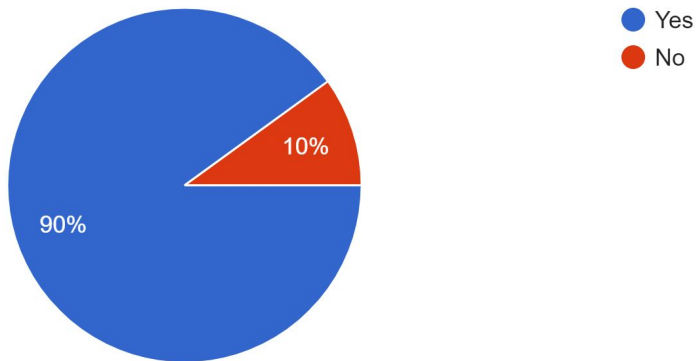

3. Does the age of your student(s) affect how comfortable you are with them returning to school buildings?

381 responses

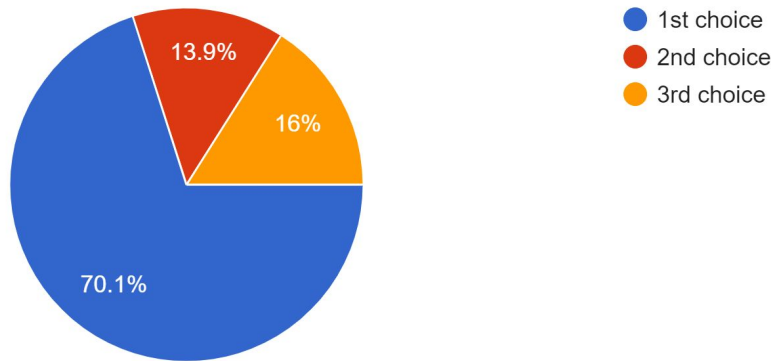

4. In place of the first four student days currently on the 2020-21 school year calendar, Hillsdale is exploring the option of replacing them with four pr... the calendar reads. Would you be in favor of this?

381 responses

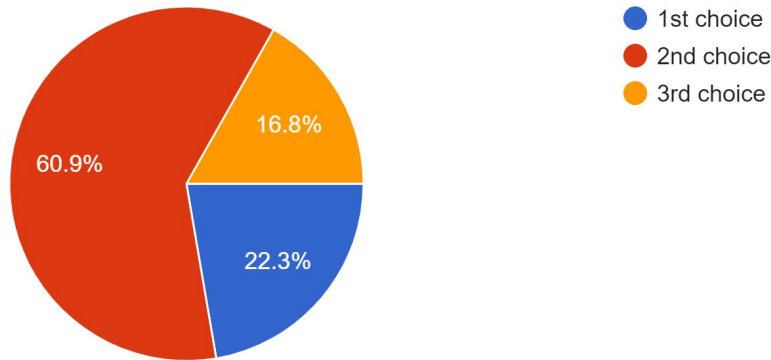

5. Traditional In-Person Model: 100% of students and staff would return to school buildings with daily attendance. All students would be provided education in a typical classroom with safety protocols followed. However, social distancing would not be enforceable. Some typical activities could be eliminated to ensure safety procedures are in place.

381 responses

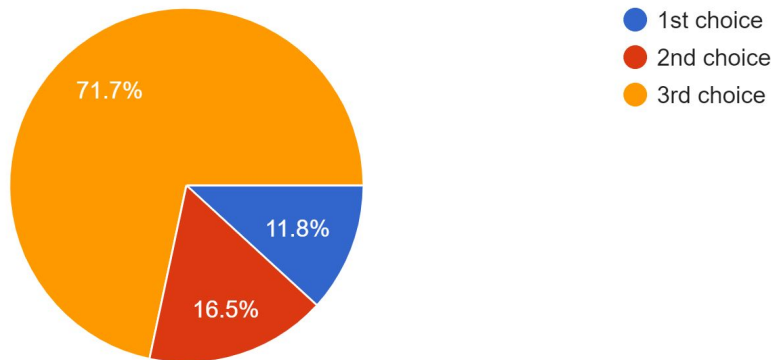

5b. Blended Learning Model: Students would attend school in the buildings for two to three days per week, receiving instruction in the classroom with a smaller group of students. On the days not in attendance in the buildings, students would complete online or packet work to reinforce the learning done in class during those two to three days in class. During building attendance, students and staff would be expected to follow restrictions per public health guidelines (social distancing, wearing masks, etc.). The school would provide support to students and parents using online tools.

381 responses

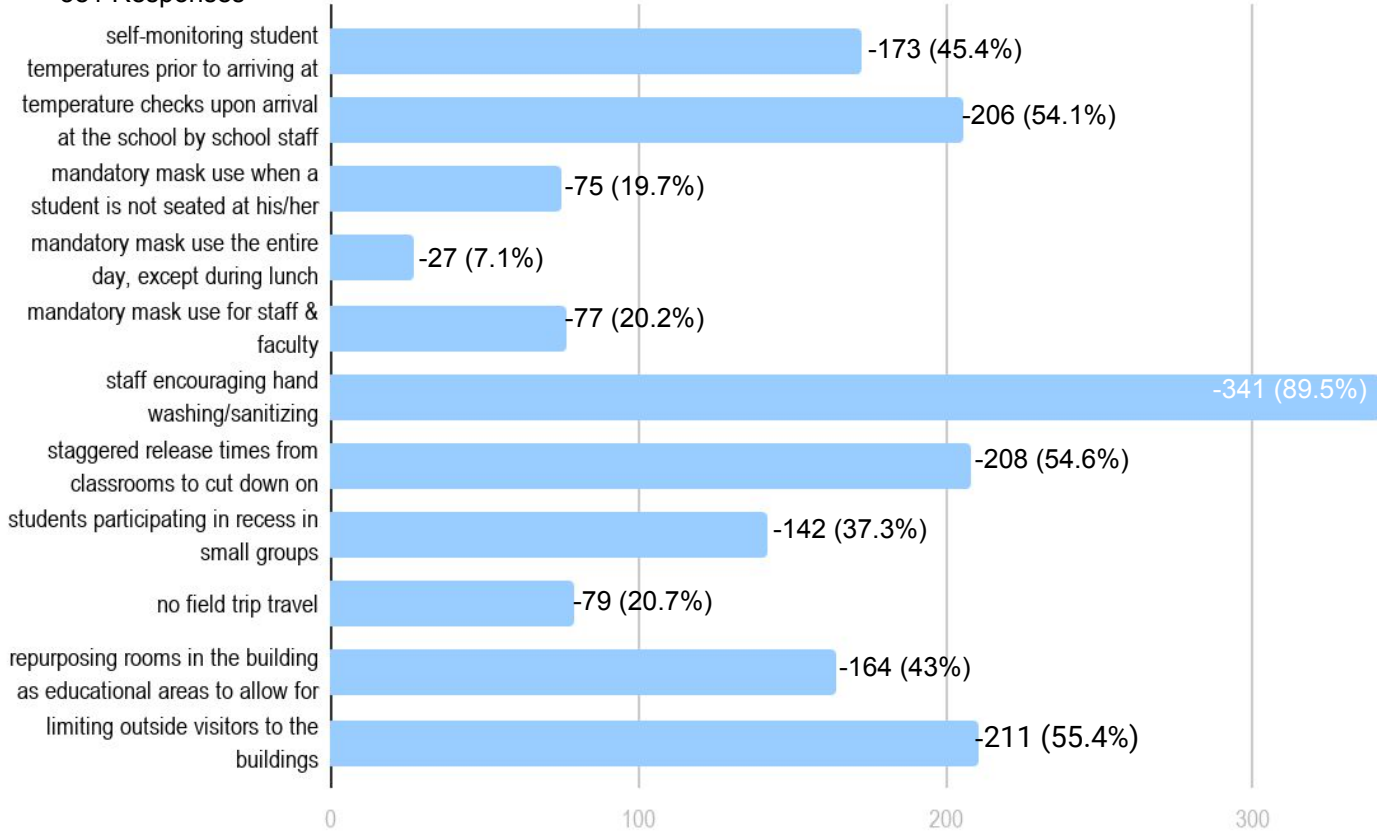

5c. Full Online Model: Students would not return to the buildings but would receive all instruction using online platforms, such as video, email, Google Classroom, Google Hangouts and/or Zoom. Teachers would provide instruction remotely from their classrooms using these platforms and work with students, both in whole groups and individually. Student work would be turned in digitally and/or through completed packets. The school would provide support to students and parents using online tools.

8. Preferred Building Safety Precautions

381 Responses

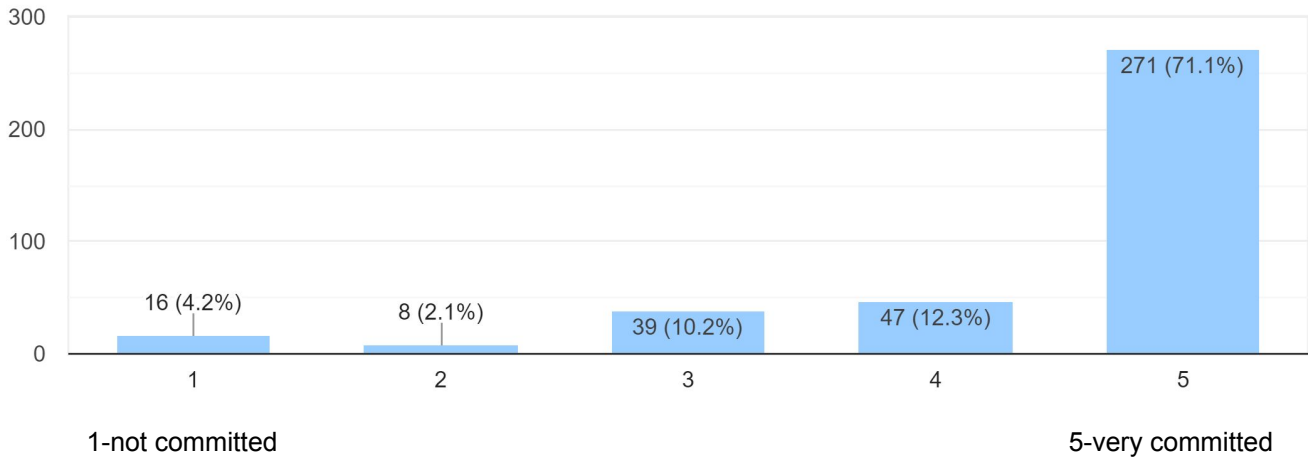

9. Do you have a thermometer to monitor your student(s)' health?

381 responses

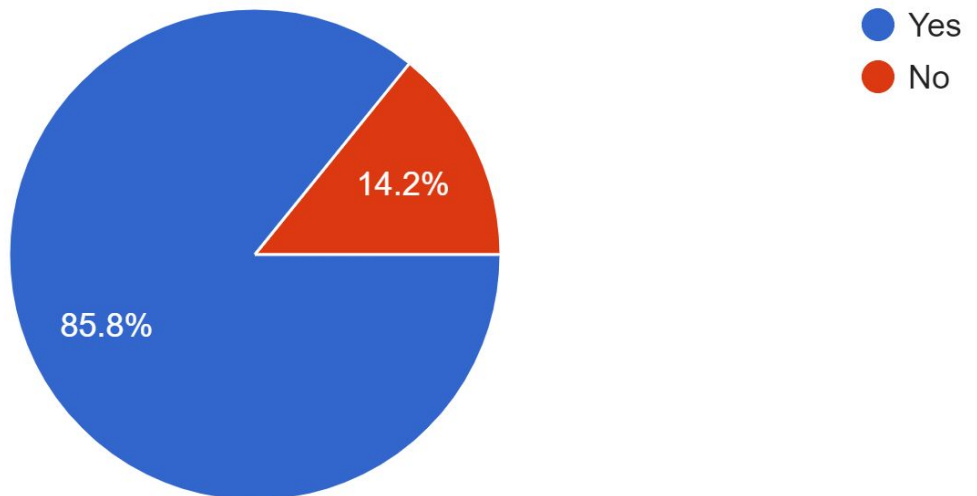

10. How committed would you be in monitoring your student(s)' temperature daily and watching for symptoms?

381 responses

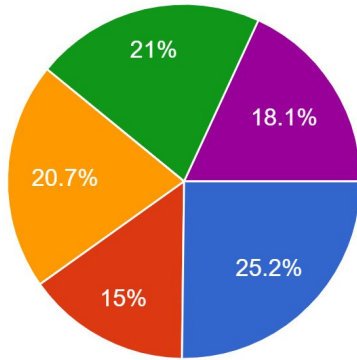

11. Are you able to provide a mask for your student(s)?

381 responses

12. If there is a confirmed COVID-19 case among students or employees, what are your expectations?

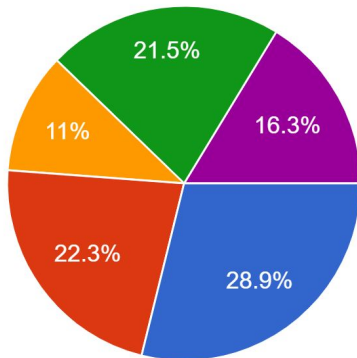

381 responses

- All school buildings should remain open and activities continued under the protocols being followed at the time.
- All school buildings should remain open and activities continued with more stringent protocols enacted,...
- Only the school building with the infected individual should close for in-person attendance and activities should be suspended for at least two weeks.
- All in-person attendance and activities should be suspended for at least two weeks.
- Unsure

13. If there is another wave of COVID-19 cases in the state, what are your expectations if there are no state mandates?

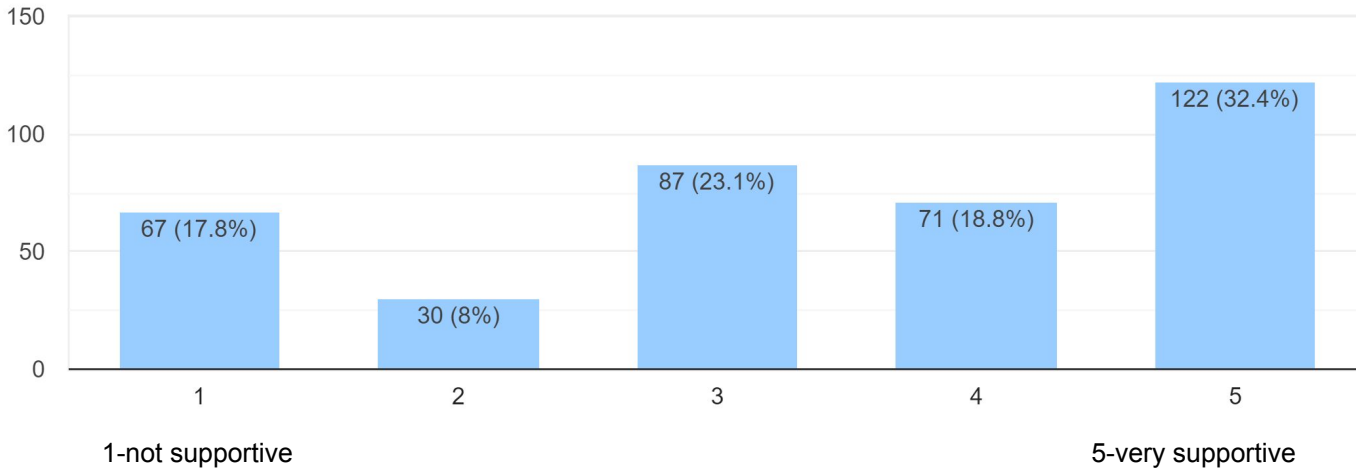

381 responses

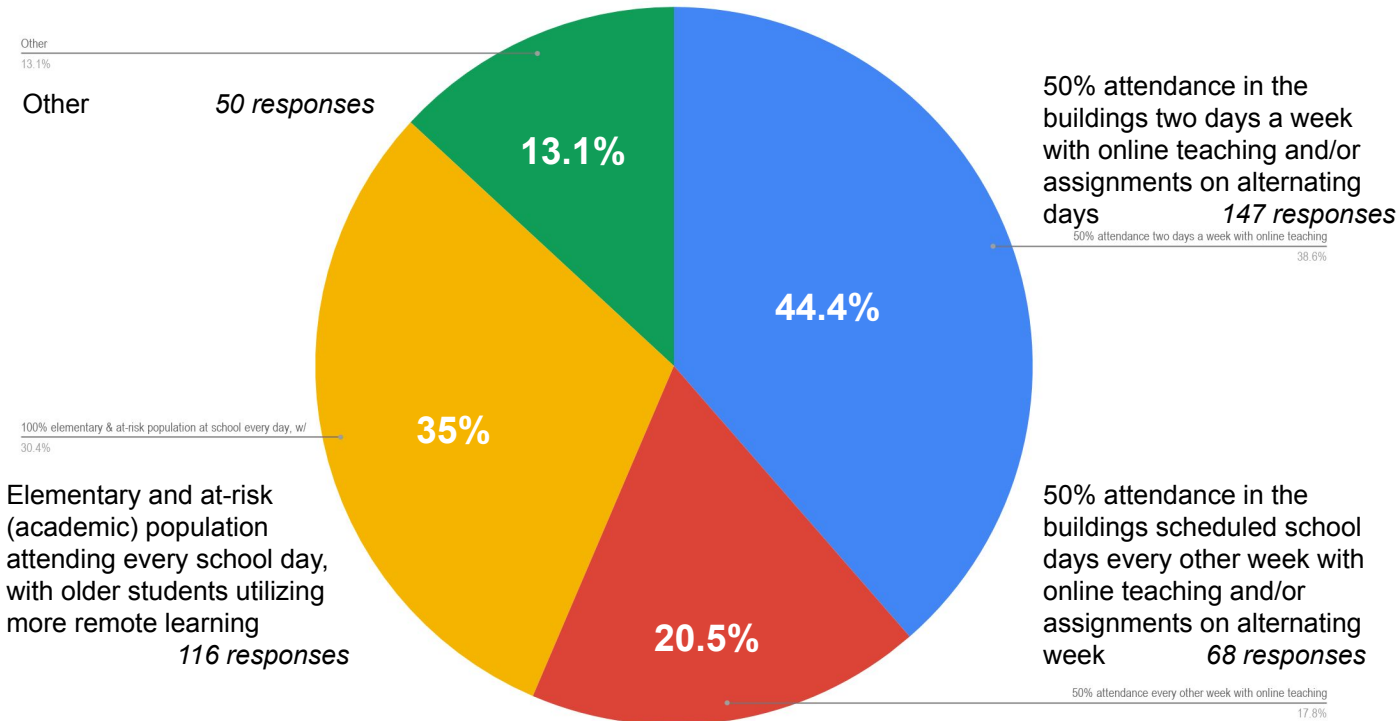

- All school buildings should remain open and activities continued under the protocols being followed at the time.
- All school buildings should remain open and activities continued with more stringent protocols enacted,...
- Only the school building with the infected individual should close for in-person attendance and activities should be suspended for at least two weeks.
- All in-person attendance and activities should be suspended for at least two weeks.
- Unsure

6. How comfortable are you with reassigning the populations served at each building to allow for balanced capacity? (For example, moving the 4th grade to the middle school building and 7th/8th grade to the high school building. This move would only be considered to preserve 100% daily attendance.)

377 responses

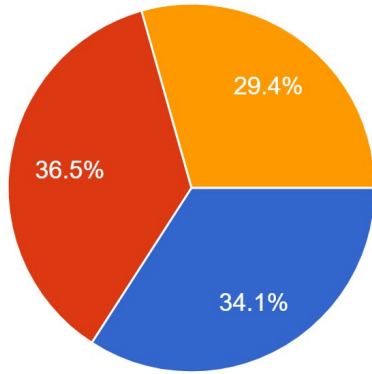

7. Preference if Required to Limit Capacity

7. If it is necessary to limit the capacity of students in the building, we will need a combination of in-person and remote education. Please mark your preference or provide a constructive alternative that relates to how to divide the time between these two locations.

14. How will your student(s) arrive at school?

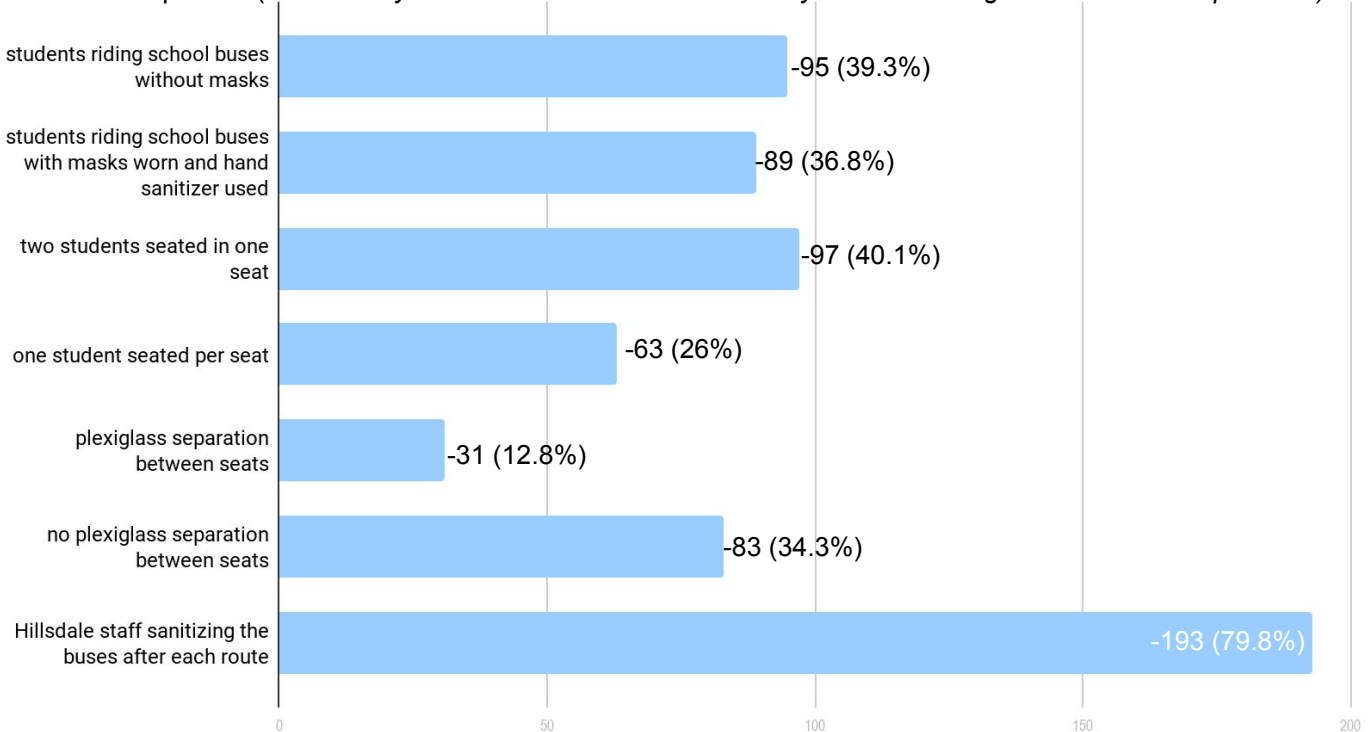

381 responses

- ride the bus
- be dropped off and picked up through personal arrangements
- a combination of school- and family-provided transportation

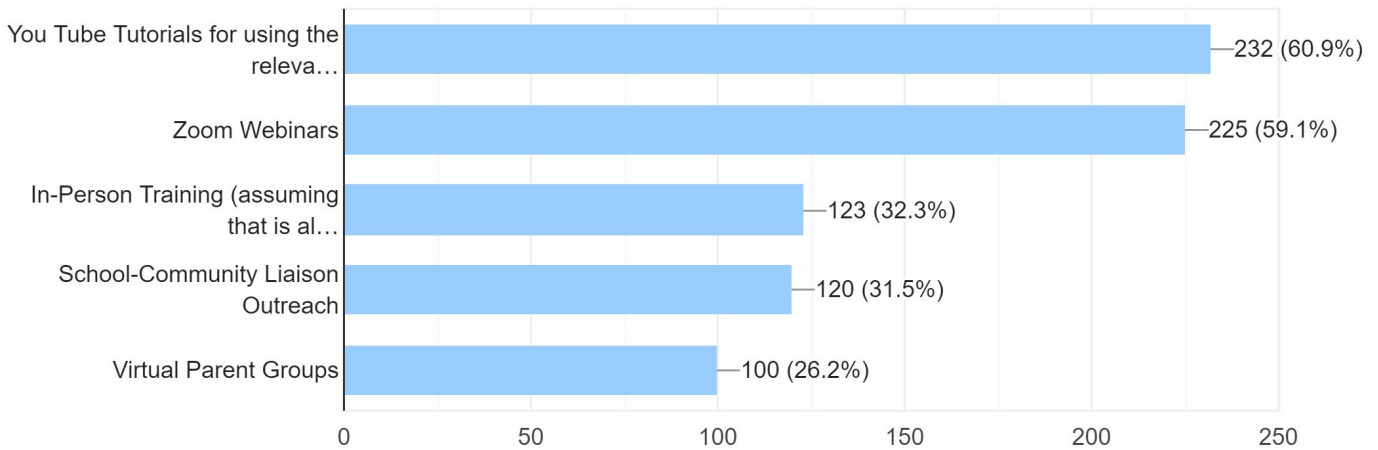

14a. Safety Procedure Preferences for Bus

242 Responses (NOTE: Only includes those who indicated they would be using the school's transportation)

15. If schools operate in a blended environment or through home-based learning at some point during the school year, what supports would benefit you? Please mark all that apply.

381 responses

16. I am concerned about childcare if schools do not open completely with daily attendance for all in the fall.
